

## 2.4G Wireless+Bluetooth mouse User manual

### Mouse Characteristics:

- DPI:800-1200-1600 DPI
- Polling rate 125Hz
- Interface: USB
- Style: office
- Tracking Method: Optical
- Working on any surface except glass surface
- Available for PC and notebook
- Hand Orientation: Both hand
- Size: 109x60x31mm
- Weight: 68g
- The number of buttons:4D
- Left and right is silent click
- Type C connect charging port
- rainbow backlight
- 300mA Li-battery inside
- Wireless distance:10m
- Wireless Technology:2.4Ghz
- Key life:5,000,000times
- System Requirements :
  - 2.4G: Windows XP, 8, 10 or above, Android 4.4 or above, IOS 13 or above, Mac OS X 10.5 OR Above, Linux chrome OS
  - Bluetooth: Windows 8, 10 or above, Android 5.0 or above, IOS, Mac OS X 10.10 OR Above
  - Bluetooth request device have Bluetooth 4.0 adapter

### mouse Specification:

Working voltage	3. 7V-4.2V
Working current	≤18mA

### Ambient conditions:

Ambient temp	0°C~+45°C
Working temperature	-20°C~60°C
Working Humidity	<85%RH

## Battery

300mA battery

Charging time about 3 hours

Use time about 46 hours

Charging current 300mA

## Use manual

### Pairing

Press the switch button to switch different mode

2.4G wireless, Red light

Bluetooth 1, yellow light

Bluetooth 2, blue light

Mouse not work in one minute will fall sleep, click any keys can wake up the mouse

FCC Warning Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
