

How to use

1. Separate Hot (left) and Cold (right) handles to control temperature and water flow.
2. Handles can be rotated 0-90°.
3. Achieve the desired temperature by adjusting the handles.

Maintenance & Care

To avoid damage it is necessary to consider the below guidelines.

1. To clean the mixers surface use clean hot soapy water. ONLY use soft fabric cloths.
2. DO NOT use cleaning solutions that contain hydrochloric acid, formic acid, concentrated caustic soda, chlorine or acetic acid as they can cause considerable damage.
3. DO NOT use any coarse cleaning powders or brushes to clean the mixer.
4. If there is irregular water pressure & water flow is reduced, please check if the spout is clean, if not brush the spout after vinegar soaking.

Warranty Requirements

For full warranty terms and conditions please visit the warranty section of our website. Please pay attention to the below. Failure to do so will void your warranty:

1. Do not use acid cleansers
2. Do not use abrasive cleansers
3. Do not use abrasive cloths

Troubleshooting

Fault: Hot is coming out when I select cold or vice versa:
Cause: Hot and cold pipes are connected the wrong way round.

Fault: Fluctuating flow rate:
Cause: Possible blockage in the system or operating conditions are incorrect.

Fault: Low or no flow from the valve:
Cause: Possible blockage in the system, operating conditions are incorrect or there is a blockage in the system.

Fault: Leak from the valve:
Cause: The holder isn't inserted to the bottom.

Installation Guide Darcey Deck Mounted Basin Mixer DAR-312
